DEPARTMENT STRENGTHS AND APPROACHES

History students considering Concordia University for 1978-1979 will be an historic group in themselves, since they will be the first to benefit from the many advantages resulting from the merger and integration of the formerly separate departments at Sir George and Loyola. Three general options are available: a history programme at either the downtown Sir George Campus or the west-campus at Loyola, or a combination of both academic communities. At the same time, faculty members from Sir George and Loyola will be inter-changing their courses and continue to expand upon the interaction that has gone on apace since the merger. Thus, specialists in European history are able to broaden their offerings as will the now larger group of Canadianist historians concentrating on social issues and Quebec history, for example. Immigration history will receive increased attention, reflecting the many ethnic groups that make the Concordia student body such an exciting and varied community.

Close liaison with CGEPS professors has long been a tradition at both Sir George and Loyola where so may CGEPS teaching staff have received their training in history. Consequently, students entering Concordia from Montreal CGEPS are usually able to receive exemption from our first year introductory courses in European and Canadian history. At the other end of the stream, Concordia's wide contacts with Quebec's and Ontario's commercial government and educational communities enables Concordia graduates in history to have access to a wide range of vocations, notably in journalism, business, government and professional schools. We can't guarantee you jobs, but we can steer you in the right direction. We can also assure you a high degree of flexibility in the choice of courses, an increasingly bilingual atmosphere among our student body, improved library facilities resulting from the merger.

Recent Concordia history graduates have been accepted by such outstanding graduate programs as Toronto, McGill, Johns Hopkins London and Chicago, and by similarly prestigious law schools. Our students have won several Woodrow Wilson and Canada Council awards in recent years and the only three recipients of the prestigious Rhodes Scholarship to Oxford to be selected from either Sir George or Loyola have come from our department, and all in the past nine years.

STUDENT HISTORY ASSOCIATIONS

The History Department is particularly proud of its student body. Ours has always been a 'lively bunch' which has freely involved itself in the affairs of the Department and which has traditionally held close relations with the department faculty. The History Students' Associations, one on each campus, described in the following pages, have been responsible for much of this sense of involvement.

CONCORDIA HISTORY STUDENTS

Who are our History students?

Although the majority of our students come from the Montreal area, we also have at present students from several other provinces within Canada, and from a host of other nations: the U.S., Britain, the Netherlands, Nigeria, India, Hong Kong, Trinidad and Iran among them.

Just over half of our students come to us directly from a Quebec CEGEP program or from high schools outside the Province. A considerable proportion also come to us with some years experience in the work force, where our part-time, summer and qualifying year programs have proven particularly attractive.

What Role do History Students play in the Department?

History students automatically become members of their respective history societies (Loyola History Students' Association or Sir George History Society), and participate in Departmental affairs largely through these bodies. Both organizations elect their officers annually, and have a variety of active committees. They provide student representatives (5 for Loyola, 10 for Sir George) as full voting members in History Department meetings, have representation on the Departmental Tenure Committee and Curriculum Committee, and have their own Committee for Faculty Contractual Recommendations.

The Sir George History Society's objective is to foster an interest in all fields of history and at all levels by promoting public awareness of the Society and developing the ideals and concepts of historical thought on the Downtown campus. It also presents the opinions of history students to the organizations with which it is affiliated.

In a less formal sense, the LHSA helps organize the annual History Department Retreat to the University's property at Lacolle, and sponsors at least one student-faculty party per term. These functions accomplish a great deal in maintaining the closeness of student-faculty relations for which the Department has been known.

As the voice of the History students, the LHSA and SGWHS also engage in several para-academic activities each year. They edit and publish jointly The Loyola History Students' Journal annually, and distribute it to students, faculty, the Library, and the National Archives in Ottawa. In addition, both organizations sponsor a visiting lecturer series.

FACULTY

The following are the full-time regular members of the History department. In every year, the department also employs well qualified part-time faculty from other institutions to teach a few additional courses or to replace a regular faculty member who may be on sabbatical leave for the year. Those who will be on leave for 1978-79 will have an asterisk before their name.

SIR GEORGE WILLIAMS CAMPUS

Alan H. Adamson (Ph.D. London) Britain and Latin America.

Just returned from a year's leave spent in England, Prof. Adamson is especially interested in the relationships between class and culture in the nineteenth century. His book Sugar Without Slaves: The Political Economy of British Guiana, 1838-1904, published by Yale University in 1972, has been widely praised.

Charles L. Bertrand (Ph.D., Wisconsin) Italy and European Social History.

The current director of the Interuniversity Centre for European Studies, Dr. Bertrand is also one of our most effective lecturers. He is presently engaged in researching Italian immigration to Canada.

Frederick Bode (Ph.D., Yale) 19th Century United States.

Dr. Bode's recent book, Protestantism and the New South, which appeared in 1975, reflects his interest in the social history of the pre-Civil War south. During his recent sabbatical, he used a quantitative approach to study social structure and social change in pre-Civil War Georgia.

Robin B. Burns (Ph.D., McGill) 19th Century Canada and the Irish in Canada.

A native Montrealer, Dr. Burns' wide knowledge of the city and province's social and political history helps to account for his success as a lecturer in Canadian history. The authority on the life of D'Arcy McGee, Dr. Burns is also working with Dr. Bertrand on researching aspects of Canada's immigration history.

* Frank Chalk (Ph.D., Wisconsin) US Foreign Relations & Africa.

Prof. Chalk's classroom skills have done much to establish the strong teaching tradition at Sir George. On leave this year, he will prepare a manuscript based on research he conducted in Ibadan, Nigeria on the impact of colonialism on food production. He is especially interested in the structural mechanisms shaping the workings of the capitalist state and their impact on pre-industrial societies.

* On leave 1978-79

Richard J. Diubaldo (Ph.D., Western Ontario) The North and Can-US Relations. Dr. Diubaldo spent his recent sabbatical preparing for publication Stefansson and the Canadian Arctic, a definitive study of the controversial explorer, which will be published this academic year by McGill-Queens press. His popular course, the Canadian North, will be taught on both the Sir George and Loyola campuses.

Donald Ginter (Ph.D., California-Berkeley) 17th & 18th Century Britain. A specialist in the social and political history of England, Dr. Ginter's first book was on the origins of political party organizations. He is now working on a comparative study of social structure and change in England, The U.S. and Canada during the later 18th and 19th centuries.

John L. Hill (Ph.D., Duke) Modern India, China, South-East Asia. Born in China and educated there and in the United States, Dr. Hill has maintained a strong academic interest in Asia in general and India in particular. His current research deals with the emergence of modern political organizations and structures in India.

Frederick Krantz (Ph.D., Cornell) Renaissance Europe. An impressive lecturer of the European survey, Prof. Krantz is also a diligent scholar who has written on Florentine humanism and Renaissance economic history. Currently re-adjusting to Montreal after a year's leave in Italy, he is working on a study of Florentine social thought, 1400-1500.

John F. Laffey (Ph.D., Cornell) European Intellectual History and European Imperialism in China. Widely published in Canadian, American and European periodicals, Dr. Laffey's current research concerns French imperialism in East Asia and more generally with the larger question of imperialist theory and practice. His teaching interests embrace the social and intellectual developments within Europe during the last three centuries.

Edward E. McCullough (Ph.D., McGill) European Diplomatic History. The founding chairman of the history department at Sir George, Dr. McCullough has maintained, throughout his teaching career, a keen interest in European diplomatic history and especially the origins of the first world war, the subject of his research seminar for this year.

- * Cameron Nish (Doctorat, Laval) French Canada and the Philosophy of History.
One of our most prolific publisher, Prof. Nish's lengthy list includes titles in both languages and ranges from works in New France and the Conquest to Maurice Duplessis. He is also research director of the Centre de Recherche en Histoire Economique du Canada francais.
- Lionel Rothkrug (Ph.D., California-Berkeley) 17th Century Europe.
Dr. Rothkrug's first research culminated in The Opposition to Louis XIV and since then he has broadened his field and his current massive study, soon to be published, deals with the cultural origins of the Reformation in medieval and early modern France and Germany.
- George Rude (Ph.D., London)
The pioneering work of George Rude on crowd behaviour in 18th and early 19th century France and England has earned him a distinguished international reputation, with constant demands for lectures from academic centres on three continents. His numerous publications include The Crowd in History, Wilkes and Liberty, Captain Swing and Revolutionary Europe.
- Stephen J. Scheinberg (Ph.D., Wisconsin) 20th Century United States.
Dr. Scheinberg's wide knowledge of Canadian-American relations, has resulted in a steady flow of highly-regarded articles in journals in both countries. He has just completed a monograph with Prof. Diubaldo entitled "Aspects of Canadian-American Relations in the Post-War era". His on-going research deals with the American economic conquest of Canada.
- Franziska E. Shlosser (M.A., McGill) Ancient Greece, Rome and Byzantium.
The fact that Prof. Shlosser's two survey courses in Ancient Greece and Rome are usually filled attests to students' renewed interests in these fields and to her teaching success. Currently completing her doctorate at McGill, she has a special interest and expertise in ancient coinage and taxation.
- Martin Singer (Ph.D., Michigan) China and Japan.
Prof. Singer's recently completed doctoral thesis, The Revolutionization of Youth in the People's Republic of China is an important addition to this field. His extremely successful East Asia trips are still being discussed by the students fortunate enough to participate, indication of Prof. Singer's energies and standards as a history teacher.
- Irving H. Smith (Ph.D., McGill) Russia and Europe.
One of our best organized and hence successful teachers, Prof. Smith's course in Russian history has been in demand on both campuses for several years. The author of a study on Trotsky, Prof. Smith is currently examining the role of bourgeois experts in the Russian and Chinese revolutions.

* Veronica Strong-Boag (Ph.D., Toronto) Women and 20th Century Canada.
A leader in the rapidly expanding field of women's history, Prof. Strong-Boag's published dissertation, The Parliament of Women: The National Council of Women of Canada is one of several of her works and articles being widely used in the classroom.

Walter Van Nus (Ph.D., Toronto) Canadian Social and Urban History.
Another trend-setter in Canadian history, Prof. Van Nus is a pioneer in urban history, town planning and working class conditions. As well, he is an effective and dedicated teacher who has taught the introductory survey in Canadian history on both campuses.

Robert E. Wall (Ph.D., Yale) Colonial America.
A former department chairman at Sir George who is now responsible for establishing the college concept at Concordia, Prof. Wall still manages to keep one foot in the classroom to share his great knowledge and enthusiasm about early New England.

Richard Wilbur (M.A., Queen's) 20th Century Canada and Atlantic Prov.
An experienced teacher and writer on modern Canada, Prof. Wilbur's research on the 1930's has produced two books and several articles. Currently chairman of the undergraduate committee of the Sir George campus, he serves as guide and mentor for history students attempting to unravel a sometimes complex bureaucracy.

SPECIAL ACTIVITIES

The Inter-University Centre for European Studies brings together people in universities of the Montreal community who are interested in European history, and brings distinguished lecturers to the city. It is concerned with the encouragement of research, the exchange of information, and the prevention of duplication in library purchasing.

Students also have access to the research facilities of the Centre d'Etude du Quebec, sponsored by Concordia University, and the Centre de Recherche en Histoire Economique du Canada Francais, jointly sponsored by Concordia and l'Ecole des hautes etudes commerciales, under the direction of Cameron Nish, Professor of History.

ADVISING SYSTEM

- A. This system is designed to provide each major, double minor, and honours student in history with a faculty advisor for the duration of the student's enrollment at Concordia.

A year-round advising system benefits students in the following ways:

 - (1) It assists students to clarify their academic objectives and concerns early in their programmes at Concordia;
 - (2) It broadens each student's chance to obtain well-informed advice about routine academic problems; and
 - (3) It insures that each student has at least one faculty member to turn to in times of serious stress or crisis in his or her academic development.
 - B. The system is administered by the Undergraduate Director with the assistance of the department's administrative assistant.
 - C. At the outset, each full and part-time student presently enrolled in any history programme is assigned to a faculty advisor. Honours students who have already chosen a thesis topic become the advisees of their thesis director, but go through the Undergraduate Director for a final check of their programmes to complete their registration.
 - D. As new students register for the history programmes, they are assigned to a faculty advisor.
 - E. Students wishing to include "related" courses* in their programme do so with the consent of their advisor and must make this known to the Undergraduate Director.
 - F. A student or faculty member wishing to terminate an advising assignment must inform the Undergraduate Director.
- * Related Courses: A related course is one which both the student and the advisor consider relevant to the student's individual programme of study in history.

History Programs

The Department of History has always striven for flexibility in its programs, so that it can best meet the needs of the individual student.

Students may enter the Department in September or January, take courses toward their degree either full time or part-time, and either in the day or the evening. A select range of courses is also offered during the summer, where again both day and evening classes are available.

In pursuing a degree in History, a student may select from the following programs:

Honours History (the standard preparation for graduate and professional schools)

Specialization in History (the "Bac. Spécialisé," which is coming to be recognized as the standard preparation for teacher training in Quebec)

History Major (a general and more flexible program)

Joint Honours in History and English, History and Religion, History & Philosophy, History and French

Joint Specialization in History and English

Double Major in History and numerous other disciplines

History Minor

Post BA "Qualifying Year" Program (to bring a BA major degree up to the standard for graduate school admission)

In addition to these many programs, the Department of History also participates in several interdisciplinary programs under the aegis of the centre for Interdisciplinary Studies. These include Canadian Studies, Third World Studies, Asian Studies, Women's Studies, a Medieval Studies, Science and Human Affairs, Urban Studies, Russian Studies.

How were the English speaking merchants able to secure economic domination? What were the origins of the conflict between English and French speaking Canada? How did Canada relate to the "Age of the Democratic Revolution"? What did the architects of Confederation intend to accomplish by the federal union of British North America? Can one identify the accomplishment of Confederation with the beginning of the Canadian nation?

HISTORY S261/3 (161/3) Section X
HISTORY OF ASIA (6 credits)

Instructor: J. Hill

TT 10:15 - 11:30

Description: This course is designed to introduce the history of modern Asian peoples. Special attention is given to India and China as the major centres in which the great civilizations of Asia developed. After discussing the basic evolution of societal structures and intellectual ideas in early China and India, the course concentrates on the changes which those societies have experienced in the last two hundred years. A particular concern of the course is the impact of European imperialism in accelerating the collapse of traditional political structures in Asia and the complex processes of intellectual reappraisal, social change and political reorganization in the 19th and 20th centuries. The emergence of the Communist Party as an integrating force in China and the development of Gandhian nationalism and Muslim separatism in India will be two foci of attention. The role of Japan as an Asian nation which modernized with incredible rapidity and efficiency and its impact on the rest of Asia is also examined.

Texts:

- J. Yohannon, Treasury of Asian Literature
P. Spear, A History of India, Vol. II

HISTORY S321/3 Section A
BRITISH NORTH AMERICA, 1713 - 1873 (6 credits)

Instructor: Robin Burns

MMF 9:50 - 10:40

Description: The History of British North America begins with the conquests of Acadia and New France, the founding of Nova Scotia and the inauguration of the new British province of Quebec. Special attention is given to the significance of the American Revolution and the question is asked: why did not these two colonies join the other thirteen in the War for Independence? The course examines the many cultural heritages of those peoples who made up British American society and the diverse regions where they chose to locate and to develop. The first term concludes with a study of the rebellions in the two Canadas. The second term concentrates on the many remarkable achievements made by British Americans in the three decades which followed the rebellions. During this short period of time, British Americans obtained the control of their own government without a revolution; they reformed the institutions of the old colonial regimes; they developed a national economic system and they introduced a new form of political union. Special attention is given to the nature of that union, how it was achieved, and how it was supposed to provide for the co-existence of two language groups and a multiplicity of ethnic and religious groups. The course concludes by examining the problem of how British Americans were able to establish their transcontinental nationality so peacefully and so quickly, when Germans, Americans, and Italians required violence and a much longer period of time.

Assignment & Grading: The classes will be divided into lectures and seminars. Students will be expected to participate in four seminars each term. Students will also be expected to develop two of these seminar topics into research essays of approximately fifteen pages in length.

Texts: Reading will vary according to the topics which the student selects.

THE HISTORIES OF QUEBEC AND IRELAND COMPARED (6 credits)

Instructor: Robin Burns

Mon 18:15 - 20:10

Description: On the surface, the histories of Ireland and Quebec are strikingly similar. Both were non English-speaking and Catholic societies that were conquered by the British. The Irish and Quebec economies remained largely agricultural and their societies remained predominately rural while neighbouring regions industrialized and urbanized. Each experienced an agricultural crisis followed by extensive emigration. Both Ireland and Quebec experienced a variety of movements for reform and national liberation. Other parallels abound. The seminar will explore the comparative histories of Ireland and Quebec. Each student will be asked to explore two historical problems which are relevant to the two histories. Such problems might include: The Conquests, British Policy, The Catholic Church, Daniel O'Connell and Louis Lafontaine, Nationalism.
